WÄRTSILÄ GUARANTEED ASSET PERFORMANCE

1. A ship owner’s day is full of questions...

2. ...which are addressed by Wärtsilä’s experts...

   - Connectivity is established and data collected...
     - through digital services. What we can measure, we can guarantee.
   - Our experts analyse the data...
     - ...and take preventive and predictive actions to achieve the performance targets.
   - We support your daily operations...
     - ...with our dedicated operational management, backed up by several expertise centres and the global Wärtsilä organisation.
   - We maintain and improve your performance...
     - ...by creating a dynamic plan for continuous optimisation and improvement of your fleet.

WÄRTSILÄ LIFECYCLE SOLUTIONS
Guaranteed asset performance
Optimised operations
Optimised maintenance

3. Improving performance during the vessel’s lifetime.

   - How can I utilise existing data to optimise the performance of my fleet?
   - How do I ensure the uptime of my fleet?
   - How do I ensure the efficiency of my operations?
   - What are my operational costs during the vessel’s lifetime?
   - How do I ensure my fleet stays competitive?
   - How do I improve my business?

...resulting in the guaranteed performance of your fleet.

- Guaranteed operational reliability increases safety.
- Long-term costs are predictable.
- Your personnel can focus on your core business.
- Measured data allows continuous performance improvement.
- Increased fuel efficiency leads to significant savings in operational costs.
- The business model is based on achieving the commonly agreed performance targets.
